Animal Reproduction Science, 32 (1993) 284–286
Elsevier Science Publishers B.V., Amsterdam

Author Index

Abou-Ahmed, M.M., El-Belely, M.S., Ismail, S.T., El-Baghdady, Y.R.M. and Hemeida, N.A.
Influence of age and season on certain biochemical constituents of seminal plasma of Arabian horses 237
Achata, R., *see* Garnica, J. et al.
Al-Eknah, M.M., Dafalla, E.A., Homeida, A.M., Galil, A.K.A. and Al-Taher, A.Y.
Spontaneous uterine activity during the oestrous cycle of the camel (*Camelus dromedarius*) 91
Al-Gahtani, S.J., *see* El-Banna, A.A. et al.
Al-Taher, A.Y., *see* Al-Eknah, M.M. et al.
A Pawelczyk, L., Moon, Y.S. and Ho Yuen, B.
Ovulatory response, ovarian LH/hCG receptors and serum concentrations of LH, insulin and steroid hormones in immature Zucker rats after PMSG treatment 135
Aurich, J.E., Dobrinski, I., Hoppen, H.-O. and Grunert, E.
No evidence for an opioidergic control of oxytocin release in cows during late pregnancy, parturition and early puerperium 197
Avdi, M., *see* Driancourt, M.A. et al.
Baratta, M., *see* Grasselli, F. et al.
Behalová, E., Pavlok, A., Motlík, J. and Fulka, J.
In vitro fertilisation of pig ova: Effects of various factors on penetration, polyspermy and male pronucleus development 127
Berman, A., *see* Wolfenson, D. et al.
Blair, R.M., Zavy, M.T., Yellin, T. and Geisert, R.D.
Estrogen administration on Days 9 and 10 of gestation does not adversely affect ultrastructural changes of porcine uterine luminal epithelium 253
Bravo, P.W., *see* Garnica, J. et al.
Courot, M., *see* Kilgour, R.J. et al.
Dafalla, E.A., *see* Al-Eknah, M.M. et al.
Dobrinski, I., *see* Aurich, J.E. et al.
Driancourt, M.A. and Avdi, M.
Effect of the physiological stage of the ewe on the number of follicles ovulating following hCG injection 227
Dubois, M.P., *see* Kilgour, R.J. et al.
Echternkamp, S.E.
Relationship between placental development and calf birth weight in beef cattle 1
El-Baghdady, Y.R.M., *see* Abou-Ahmed, M.M. et al.
El-Banna, A.A., Al-Gahtani, S.J. and Sedrani, S.H.
Effect of indomethacin on free amino acids in rabbit uterine flushings when administered during the normal time of implantation 267
El-Belely, M.S., *see* Abou-Ahmed, M.M. et al.
El-Gaafary, M.N., Graves, C.N. and Goncalves, P.B.
Re-activated bull spermatozoa: motility, acrosome status and ability to penetrate cervical mucus and zona-free hamster oocytes 163

Endo, T., *see* Kanayama, K. et al.
Fairclough, R.J., *see* Lau, T.M. et al.
Fulka, J., *see* Behalová, E. et al.
Galil, A.K.A., *see* Al-Eknah, M.M. et al.
Garnica, J., Achata, R. and Bravo, P.W.
Physical and biochemical characteristics of alpaca semen 85
Geisert, R.D., *see* Blair, R.M. et al.
Goncalves, P.B., *see* El-Gaafary, M.N. et al.
Gow, C.B., *see* Lau, T.M. et al.
Grasselli, F., Baratta, M. and Tamanini, C.
Effects of a GnRH analogue (buserelin) infused via osmotic minipumps on pituitary and ovarian activity of prepubertal heifers 153
Graves, C.N., *see* El-Gaafary, M.N. et al.
Grunert, E., *see* Aurich, J.E. et al.
Hemeida, N.A., *see* Abou-Ahmed, M.M. et al.
Henniawati, *see* Walkden-Brown, S.W. et al.
Homeida, A.M., *see* Al-Eknah, M.M. et al.
Hoppen, H.-O., *see* Aurich, J.E. et al.
Ho Yuen, B., *see* A Pawelczyk, L. et al.
Illera, J.C., *see* Silván, G. et al.
Illera, M., *see* Silván, G. et al.
Inaba, T., *see* Kawate, N. et al.
Ismail, S.T., *see* Abou-Ahmed, M.M. et al.
Kanayama, K., Endo, T. and Sakuma, Y.
Follicular recruitment for superovulation induction in rabbits by FSH dissolved in glycerol or a water-soluble salve base 147
Kawate, N., Inaba, T. and Mori, J.
Effects of cortisol on the amounts of estradiol-17β and progesterone secreted and the number of luteinizing hormone receptors in cultured bovine granulosa cells 15
Kerton, D.J., *see* Lau, T.M. et al.
Kilgour, R.J., Courot, M., Pisselet, C., Dubois, M.P. and Sairam, M.R.
Inhibition of fsh affects spermatogenesis in the mature ram 213
Lau, T.M., Kerton, D.J., Gow, C.B. and Fairclough, R.J.
Prolonged progesterone treatment increases the concentration of uterine oxytocin receptors in ovariectomized ewes 205
Luft, O., *see* Wolfenson, D. et al.
Meidan, R., *see* Wolfenson, D. et al.
Moon, Y.S., *see* A Pawelczyk, L. et al.
Mori, J., *see* Kawate, N. et al.
Motlík, J., *see* Behalová, E. et al.
Paterson, A.M., *see* Pearce, G.P. et al.
Pavlok, A., *see* Behalová, E. et al.
Pearce, G.P. and Paterson, A.M.
The effect of space restriction during rearing on the attainment of puberty and subsequent reproductive activity of female pigs 99

Pisselet, C., *see* Kilgour, R.J. et al.
Rajamahendran, R., *see* Taylor, C. et al.
Restall, B.J., *see* Walkden-Brown, S.W. et al.
Sairam, M.R., *see* Kilgour, R.J. et al.
Sakuma, Y., *see* Kanayama, K. et al.
Sedrani, S.H., *see* El-Banna, A.A. et al.
Silván, G., Illera, J.C. and Illera, M.
Application of enzyme-linked immunosorbent assay (ELISA) for determining testosterone levels in the follicular fluid of prepubertal and pubertal heifers 275
Soede, N.M.
Boar stimuli around insemination affect reproductive processes in pigs: A review 107
Tamanini, C., *see* Grasselli, F. et al.
Taylor, C., Rajamahendran, R. and Walton, J.S.
Ovarian follicular dynamics and plasma luteinizing hormone concentrations in norgestomet-treated heifers 173
Varela, M.H., *see* Walter Bravo, P. et al.
Walkden-Brown, S.W., Restall, B.J. and Henniawati, .
The male effect in the Australian cashmere goat. 1. Ovarian and behavioural response of seasonally anovulatory does following the introduction of bucks 44
Walkden-Brown, S.W., Restall, B.J. and Henniawati, .
The male effect in the Australian cashmere goat. 2. Role of olfactory cues from the male 55
Walkden-Brown, S.W., Restall, B.J. and Henniawati, .
The male effect in the Australian cashmere goat. 3. Enhancement with buck nutrition and use of oestrous females 69
Walter Bravo, P. and Varela, M.H.
Prenatal development of the alpaca (*Lama pacos*) 245
Walton, J.S., *see* Taylor, C. et al.
Wildeus, S.
Age-related changes in scrotal circumference, testis size and sperm reserves in bulls of the tropically adapted Senepol breed 185
Wolfenson, D., Luft, O., Berman, A. and Meidan, R.
Effects of season, incubation temperature and cell age on progesterone and prostaglandin $F_2\alpha$ production in bovine luteal cells 27
Yellin, T., *see* Blair, R.M. et al.
Zavy, M.T., *see* Blair, R.M. et al.
